## SPECIMEN LABEL

MODIFIED VEGETABLE OIL NONIONIC SURFACTANT ANTIFOAMING AGENT

# Plant-Tech MSO.

#### **Principal Functioning Agents**

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180. CA Reg. No. 100873-50003-AA

### WARNING

#### KEEP OUT OF REACH OF CHILDREN READ ENTIRE LABEL BEFORE USING

#### **Precautionary Statements**

Wash thoroughly after handling. Wear protective gloves/clothing and eye/face protection.

#### **First Aid**

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

#### **Emergency Phone Numbers**

Have the product container with you when calling a poison control center or doctor, or going for treatment. CHEMTREC: (800) 424-9300

NOT FOR AQUATIC USE

POISON CONTROL CENTER: (800) 222-1222

#### **General Information**

Plant-Tech MSO is a unique methylated seed oil formulated to optimize pesticide performance and mixing characteristics with a wider range of tank mix partners.

Plant-Tech MSO provides superior wetting and absorption of spray applications.

#### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal of this product.

**Storage:** Store in tightly closed containers in dry, well ventilated area away from excessive heat and incompatibles (oxidizing agents).

**Product Disposal:** Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents in accordance with local and national regulations.

**Container Disposal:** Do not contaminate water sources by cleaning of equipment or disposal of wastewaters. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.agrecycling.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of containers in accordance with local and national regulations.

#### **Directions For Use**

The herbicide label will recommend the use of a modified vegetable oil and provide specific use rates, mixing and application instructions, and any additional precautionary statements. The application rates on this label are based on pesticide labels which recommend the use of a methylated seed oil or nonionic surfactant. Use the rate recommended on the pesticide label. A compatibility test is recommended prior to use. Always read and follow all label directions of the herbicide being applied.

Common Use Rate: 1 pint per acre.

Recommended Use Rate: 1 to 4 pints per acre.

Higher rates may be required on hard to control weeds or weeds which are under stress.

#### Mixing

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an antifoaming agent should be added before pesticides, nutrients, or Plant-Tech MSO.

Add pesticides and/or fertilizers as directed by label or in the following sequence:

- 1. Micronutrients and fertilizers;
- 2. Dry flowables and dispersible granules;
- 3. Flowables;
- 4. Water soluble pesticides;
- 5. Emulsifiable concentrates;
- Continue agitation and add Plant-Tech MSO. Always add Plant-Tech MSO last to the spray mixture after herbicides have been added and agitated.

After the addition of Plant-Tech MSO, reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation.

#### Warranty

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Plantnetics, LLC warrants that this material is reasonably fifor use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforescent actors beyond Plantnetics, control prevent elimination of risks in connection with the use of its products. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit or use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
